

Stewart Now Mobile App

Designed for Today's
On-the-Move Professional

OrderTrac

OrderTrac™ lets you and your clients check the status of title and escrow orders anytime. The user interface makes it easy for all parties to securely view, download and share documents instantly as status progresses from preliminary report/commitment through closing.

Property Profiles

With the property profile* feature on the Stewart Now™ mobile app, you can view ownership details, transaction history, sales comparables and more. Plus, save favorite properties or create a customized property report, and conveniently send and share it straight from your mobile device.

Office Locator

Find the nearest Stewart Title office, get directions and more.

Smart Farm

Smart Farm enables you to precisely select a group of properties with detailed farming data. Use powerful filters to segment properties, create farm reports and export mailing lists. With Smart Farm Pro**, you can identify potential properties that will go on the market with our probability score based on exclusive analytics, years owned and estimated equity. Properties are ranked hot, mild or cold based on potential turnover.

Calculate On the Go

Quickly estimate a seller's net proceeds or a buyer's cash to close. Calculate TRID deadlines and create a customized report.

Document images

View recorded documents and parcel maps from your property profile, and conveniently send and share it at the click of a button.

*Data charges may apply if your state regulations require it.
**Charges apply starting at \$2.99 per Smart Farm Pro. Contact your Sales Representative for details.

Note: Not all product offerings are available in all 50 states and, depending on the product selected, charges may apply.
